

Technical Rider for 2009-2010

PLEASE REFER TO THE STAGE PLOT PROVIDED WITH THIS CONTRACT.

Hot Club of San Francisco uses minimal amplification to offer the audience an acoustic experience. The following equipment list can be negotiated with Baylin Artists Management.

PRODUCTION AND STAGING REQUIREMENTS

- Minimum stage requirement: 20' x 12'.
- One (1) rug of sufficient size to cover the stage area occupied by HCSF (approx. 12' x 8').
- Three (3) armless chairs (not folding) such as a Wenger or a dining chair, with a flat seat.
- Two (2) music stands (not folding) such as Manhasset.

SOUND SYSTEM

Presenter agrees to provide a high quality sound system specifically designed for acoustic music. House electrical power must be properly grounded and of proper amperage to provide hum and noise free operation of sound system. If electrical power or grounding is not adequate, arrangements should be made to set up proper circuitry for the day of the performance.

- High quality sound system consisting of at least four (4) tri-amplified speaker cabinets (Apogee, Meyer, Renkus-Heinz, EAW, JBL or equivalent) adequately powered to provide distortion free and noise free performance. Minimum power 3000 watts/1000 seats. Please place main speakers on stage, as far downstage as possible.
- A high quality sixteen (16) channel (minimum) mixing console reserved for HCSF use. Console must be Soundcraft 200B or equivalent, must provide 48-volt phantom power on all channels, and must have a minimum of four (4) auxiliary sends (2 pre-fader; 2 post-fader). Console must provide at least three (3) EQ points per channel with sweepable midrange, and Console must be capable of providing stage monitor system with one (1) discrete pre-fader mix that is unaffected by the house mix. Please connect the monitor mix to separate auxiliary send (not sub-masters).
- The mixing console shall be placed on the left or right center aisle forward of any overhanging balconies, and should not be placed in a closed booth.
- One (1) one-third octave graphic equalizer for house mix; two (2) if system is stereo.
- One (1) one-third octave graphic equalizer for monitor mix.
- One (1) high-quality digital reverberation unit such as Lexicon PCM-70 or equivalent.
- Two (2) high-quality bi-amped floor monitors (EV, EAW, JBL or equivalent) adequately powered (minimum 100 watts per speaker) to provide distortion/noise free sound.
- One (1) dynamic microphone suitable for vocal amplification, on boom stand for vocal (Shure SM-58 or equivalent). Preferably with on/off switch if possible.
- Headset communications system to connect stage, mix position, and lighting personnel.

LIGHTS

In general, a three or four color wash with two down-focused 'specials' (one focused on downstage music stand, one on area where vocal mic is located). A lighting technician must be available from load-in through showtime.

SOUND AND LIGHTING CHECK

- Load-in of sound and lights should begin no later than three (3) hours before the show. Sound check should begin three (3) hours before the show (i.e. 5:00 PM for an 8:00 PM show).
- Presenter shall provide an on-site professional sound engineer to perform sound check and mix sound for the duration of HCSF's performance.
- Presenter shall not open house until technical set-up has been completed. HCSF shall complete such setup one (1) hour prior to performance time provided there are no technical problems beyond HCSF's control.
- House light will be dimmed five (5) minutes before curtain to facilitate audience seating.
- No music/entertainment, taped or otherwise, shall be played before or after the concert without approval of HCSF, unless specified on the face of the contract.

**Above times are approximate. Final schedule to be confirmed with Baylin Artists Management prior to performance.*
